Welcome Message

Welcome to **Terra Info**! Thank you for taking the time to get to know us.

Since our founding in 2022, **Terra Info** has grown from a network and Wi-Fi specialist into a one-stop IT infrastructure and systems integration partner. Today we design, build and support the technology behind offices, retail stores, F&B outlets, hospitality venues and homes across Singapore — from structured cabling and Wi-Fi to CCTV, door access, IP phone systems, managed IT and payment solutions.

We believe IT should be simple, reliable and easy to use. Our certified engineers and project managers take the time to understand your business, then deliver solutions that fit your needs, your timeline and your budget.

Behind every business is a group of people working hard to make their goals a reality. We're here to support you, to cheer you on, and to be a partner in your success.

Thank you for considering **Terra Info**. Let's make great things happen!

About

Terra Info

Terra Information Pte. Ltd. (Terra Info) is a Singapore-based IT infrastructure and systems integration company. Founded in 2022 and operating from our office and staging facility at Eunos Techpark, Kaki Bukit, we serve commercial fit-outs, retail chains, F&B, hospitality and residential clients.

Our leadership team brings more than 20 years of hands-on infrastructure experience across Singapore, China and the wider APAC region. We cover the full IT and low-voltage scope of a project — data networking and Wi-Fi, structured cabling, CCTV, door access and intercom, IP PBX and PA systems, managed IT services and payment solutions — so our clients work with one accountable partner from design and installation through to ongoing support.

Simplifying technology and empowering you.

Vision & Mission

Vision

- To empower businesses and individuals to thrive in the digital world through innovative and reliable technology.
- To be Singapore's most trusted one-stop partner for IT infrastructure — bringing networks, security, communications and payments together into solutions that simply work.

Mission

- To deliver reliable, scalable and secure solutions tailored to each client's needs and budget.
- To build long-term relationships based on trust, integrity and transparency.
- To uphold safety and quality on every site, backed by certified professionals and leading technology partners.
- Simplifying technology, empowering our customers.

Our Solutions

Network Design & Deployment

LAN/WAN design, switching, routing and firewalls for home offices, SMEs and enterprises, including SD-WAN, SASE and Zero Trust architectures. Scalable, secure and documented.

Wi-Fi Solutions

Wi-Fi 6, 6E and Wi-Fi 7 for homes, offices, retail, venues and outdoor areas, backed by professional site surveys. From whole-home mesh to multi-floor offices, retail stores and campus-wide coverage.

Structured Cabling

Copper and fibre cabling for offices, retail fit-outs and data centres, with neat containment, labelling and certification testing.

CCTV, Door Access & Intercom

IP video surveillance, card and biometric door access, and video intercom with gate control, delivered as an SPF-licensed security service provider.

IP Phone & PA Systems

IP PBX and unified communications, plus public address and background music systems for stores, offices and venues.

Payment Solutions

Payment gateway solutions for retailers and merchants, as an authorised AiMT reseller.

Our Services

At **Terra Info**, we support businesses and homeowners across the full technology lifecycle — from planning and installation to day-to-day support.

Managed IT Services

Keep your people productive and your systems healthy. Our managed IT services cover end-user computing support, helpdesk, user and device administration, network monitoring and preventive maintenance under clear service agreements, with on-site engineers available when you need them.

Smart Hands & On-site Support

Need skilled hands on site? Our technicians handle hardware installation, rack and cable management, device replacement and system configuration for offices, retail stores and data centres, so your network keeps running at peak performance.

IT Project Management

Our PMP-certified project managers take your project from survey to handover — on time, within budget and to your satisfaction. We prepare method statements and permits-to-work, coordinate with landlords and main contractors, and keep every stakeholder informed at each step.

Residential Services

From whole-home Wi-Fi and network setup to CCTV, smart door access and video intercom, we help homeowners stay connected and secure, with tidy installation and responsive after-sales support.

Why

Terra Info

One-Stop Solution Provider

Networking, cabling, CCTV, door access, IP phone, managed IT and payments under one partner — one point of accountability for your project.

Licensed & Safety Certified

SPF-licensed Security Service Provider (Licence No. L/PS/001462/2026P) and bizSAFE Level 4 certified.

Certified Expertise

PMP-certified project management and CCIE-certified engineering leadership, with specialists in SASE, SD-WAN and Zero Trust.

Trusted by Leading Brands

Designated systems integrator for POP MART in Singapore, and a TP-Link strategic services & project partner.

Rated 4.9 Stars on Google

Reflecting our focus on responsiveness, clean workmanship and after-sales care.

Retail · F&B · Hospitality · Commercial · Residential

Our
Partners & Products

We work closely with leading technology vendors and distributors to bring our clients proven, well-supported products at competitive prices.

As a **TP-Link strategic services & project partner** and an **AiMT payment solutions reseller**, we benefit from direct principal support, training and early access to new technology — including customisation where a project requires it.
